

Continuing Professional Development Certificate

Aviation Skills Shortage

Date: Wednesday 05 February 2020

Time: 1.10pm - 1.55pm

Speaker:

Stuart Fox, Director Flight Operations, IATA

In this IIL aviation lecture Stuart Fox explained what the industry was doing to address aviation skills gaps.

As there is an obvious link between the competence of the personnel and the safety in operations, IATA as the airline association, has included the “Skilled Staff item” as one of its top ten strategic priorities. In his lecture, Stuart provided insights on how IATA was already supporting its members and the aviation industry to address the challenge of the competence of the personnel in the context of unprecedented growth.

By the end of this lecture, members would have gained an insight into:

- The Methodology IATA has used to determine the aviation skills shortage;
- The results of our global survey;
- The mitigation measures that will be used to help mitigate an aviation skills shortage.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
